Soal

Case

Triplier

Jojo had just learnt his first programming language, and wants to apply his basic knowledge on multiplication. Since he was deeply in love with triple number, he would like to multiply three random number simultaneously. Given he is also bad at mathematics unfortunately, you as the programmer are tasked to help him find the final output.

Format Input

There will only be a single input, consisting of three integers, A, B, C, where A, B, C is positive number

Format Output

Output a single integer on a single line

Constraints

$$1 \leq A, B, C \leq 10000$$

Sample Input	Sample Output
1 2 3	6

Sample Input	Sample Output
2 2 2	8

Sample Input	Sample Output
3 2 3	18
