

## Remove Multiples

Jojo has just learned about multiples of an integer  $X$ . He is so smart that he knows all multiples of  $X$  from 1 to  $N$ . Now he wants you to tell him all the numbers from 1 to  $N$ , except the multiples of  $X$ . Don't try to test Jojo's knowledge on multiples of  $X$ , he knows all of them, so if you print any multiple of  $X$  you will get wrong answer.

### Format Input

The only line of input consists of two integers  $X$  and  $N$ .

### Format Output

Print all integers from 1 to  $N$ , except multiples of  $X$  in a single line separated by single spaces.

There is no trailing space in the output.

### Constraints

$2 \leq X \leq 100$

$1 \leq N \leq 1000$

| Sample Input 1 | Sample Output 1 |
|----------------|-----------------|
| 3 8            | 1 2 4 5 7 8     |

| Sample Input 2 | Sample Output 2 |
|----------------|-----------------|
| 5 3            | 1 2 3           |

| Sample Input 3 | Sample Output 3     |
|----------------|---------------------|
| 4 12           | 1 2 3 5 6 7 9 10 11 |
